## TO BE BURIED AT ST. PETER

Funeral of Governor Johnson  
Will Be Held Thursday.

## LIES IN STATE AT CAPITOL

Body of the Late Chief Executive of Minnesota Rests in the Rotunda of the State House, Where It Will Be Viewed by the People Who Had Learned to Love Him—Sorrow Over Death Is Universal.

St. Paul, Sept. 22.—All that is mortal of John Albert Johnson, most beloved of all of Minnesota's governors, most mourned of all its citizens, will be laid to rest tomorrow afternoon in the little family lot where his father and mother are buried, in the beautiful cemetery nestling among the hills near St. Peter.

Today thousands of the people who had learned to love him almost as a brother will look for the last time upon the friendly face as his body lies in state in the rotunda of the state capitol. Tomorrow the hands of loving friends will carry the body to its last resting place and sorrowing hundreds will follow the casket to the boyhood home.

The arrangements for the funeral have been completed. The active pallbearers have been selected from among the governor's closest personal friends. They are Frank A. Day, his private secretary; F. B. Lynch, a close personal friend and advisor; T. D. O'Brien, associate justice of the supreme court; E. T. Young, former attorney general; A. C. Weiss of Duluth and John C. Wise of Mankato. The honorary pallbearers include the four living ex-governors of the state, L. F. Hubbard, John Lind, Samuel R. Van Sant and Senator Knute Nelson, together with Governor Adolph O. Eberhart, C. M. Start, chief justice of the supreme court; John Burke, governor of North Dakota, and Cyrus Northrop, president of the state university.

### Body Lies in State.

The body will lie in state in the rotunda of the capitol all day today and early tomorrow morning. The doors will be opened to the public at 10 o'clock and will stay open until 9:30 this evening. A military guard will stand watch over the body while the friends of the departed statesman pass by the bier for the last glimpse.

There will be no religious exercises at the capitol, but the remains will be escorted to the union station by a military staff. The militia will be headed by a band of 100 pieces furnished gratuitously by the St. Paul musicians' union. Following in the parade will be the state militia of St. Paul and Minneapolis, the cadets of the state university and the cadets of St. Thomas college.

The body will be taken from the capitol at 9:15 tomorrow morning and removed to the union depot. Here a special train will take the remains to St. Peter.

The body will then be taken to the Presbyterian church of which the governor was a member, and where he sang in the choir when he was a youth. Here the people of St. Peter and those who have come from surrounding towns will have their last opportunity to view the remains.

Telegrams from prominent men all over the country show that the sorrow over the death of Governor Johnson is not confined to his native state, but is felt the country over.

## SHOCKS HENRY WATTERSON

Johnson's Death Mourned by the Kentucky Editor.

Paris, Sept. 22.—Colonel Henry Watterson, editor of the Louisville Courier-Journal, who is visiting Paris, was greatly shocked when informed of Governor Johnson's death.

"I knew Governor Johnson well from early manhood," said Colonel Watterson. "He did me the honor of calling himself one of my 'boys.' In the summer of 1907 I made a sincere effort to convince the thinking Democrats that his nomination would give us the only chance of election in 1908. Those who thought well of the suggestion, however, delayed too long in acting upon it, and let the time pass, which, had it been improved, might have changed the whole character of the last presidential campaign.

"I am deeply distressed by the news of his death. The republic has undoubtedly lost a great American. Had he lived he could have discharged a great public duty in leading us toward the organization of an adequate and

## SUITS AT MICHAEL'S

We are showing, at the present time, the largest line of suits that we shall show this season. We are showing a larger proportion of the "Printzess" than ever before for several well defined reasons.

**STYLE** No garment however well made or of the best of cloth is a desirable garment unless it has the best of style. We know that there are no suits that can follow Fashions' dictates closer than the "PRINTZESS" garments.

**FIT** Here is where many tailored suits are deficient. "PRINTZESS" garments, however, have fitting qualities that simply cannot be excelled, if equaled. At the collar, shoulder, front and hip they fit with glove like precision. This is the result of the excellency of tailoring.

**QUALITY** The "PRINTZESS" qualities are only the best. Every yard of cloth is selected for service as well as for the beauty and every woman purchasing a Printzess garment may wear her garment with the assurance that she has the best.

**PRICE** One would naturally expect the "PRINTZESS" suits to be high priced, such is not true. The predominant feature of the Printzess garments is the reasonable prices. Ours are priced at from \$25.00 to \$50.00.

**ECONOMY** Many a woman will wear a "PRINTZESS" suit this winter who intended wearing a coat because of the length and weight of the coats. They are as heavy as the average coat and the woman purchasing a suit has but a trifle more to pay and yet she has the two garments.

We are featuring a special display of garments this week and we shall greatly appreciate the privilege of showing you the best garments you have ever seen at popular prices.

enlightened opposition, which the country very much needs. "I tender my respectful sympathy and homage to his family, and indeed to all the people of Minnesota."

## DEATH LIST FROM HURRICANE GROWS

Sixteen Lives Lost in the Gulf Coast States.

New Orleans, Sept. 22.—While the re-establishment of communication with isolated points along the gulf coasts of Louisiana and Mississippi may add a few to the number of persons who lost their lives as a result of the hurricane, the indications are that the list of dead will not be swelled very materially. Besides the five men who lost their lives in New Orleans, but four deaths have been definitely shown. These include two at Jackson, Miss., one at Gramercy, La., and one at Flaquemin, La.

The day was marked by the rumors of great disasters. The scene at Chef Nentour, where a Louisville and Nashville railroad train with 500 passengers was marooned a day and a half, was a pitiful one. A press representative headed a party of passengers who worked their way through the swamp and marsh to a point where they were picked up in an exhausted condition by a relief train which brought them to New Orleans.

It is reported that nearly every plantation between New Orleans and Baton Rouge suffered damage. It is believed that the damage to the cane crop will amount to \$1,000,000 or more.

Two hundred barges of coal, valued at about \$600,000, were sunk in the Mississippi river. It is said that about seventy-five per cent of the coal can be recovered.

News reached here that 106 barges

loaded with coal went down in the Mississippi river near Lobdell, La., as a result of the hurricane. The cargo was valued at \$500,000.

Seven additional deaths in Louisiana as a result of the hurricane have been reported. A negro reaching Kenner, La., from Drair, La., brought the news of the death of seven persons at that place.

Henry Schlosier, a section foreman of the Illinois Central railroad, wife and child, were killed when their house was blown down. Four members of a family named Windecker were drowned in Lake Ponchartrain.

## INCREASING IN VIOLENCE

Severe Storm From the South Hits Chicago.

Chicago, Sept. 22.—A severe storm reached this city at nightfall and has steadily increased in violence. According to the local weather bureau it is the forerunner of the storm which wrought such havoc in the South. The center of the storm is in Southern Illinois and Missouri, and it is advancing steadily northward.

The local forecaster said that the present storm spreads over a tremendous territory and is almost a record-breaker for the area covered. It extends practically from the Atlantic ocean to the Rocky mountains and from Chicago to New Orleans.

Storm signals were displayed all over the Great Lakes.

## German Evangelical Synod.

Burlington, Ia., Sept. 22.—The German Evangelical synod of North America convened in general conference here. The conference now has 1,015 pastors. Plans are under way for establishing colleges and academies in Texas, Southern Illinois and Iowa districts.

## Gift From Tobacco Magnate.

Durham, N. C., Sept. 22.—Trinity college, through the generosity of E. L. Duke, the tobacco magnate, it is announced, is to have erected two buildings connected with a tower, costing \$200,000.

**Spanish Loss in Battle.**  
Madrid, Sept. 21.—Official dispatches from Melilla say that a convoy has returned there with 106 wounded and 19 dead.

**Siamese Prince Dead.**  
Paris, Sept. 22.—A special dispatch from Bangkok says that Prince Urukongse, the youngest son of the king of Siam, is dead.

## WEATHER FORECAST

Generally fair tonight and Thursday. Cooler tonight, with frosts.

John A. Johnson was the first governor of Minnesota to die while holding the office, and also the first and only native son to become governor of the state.

Fargo's budget for the coming year will exceed \$120,000. That is quite an expense bill, but a growing city can spend many thousands of dollars in civic improvements, and spend it right at that.

Pork tenderloin is taking its place along side the most delicate dishes in the catalogue of the millionaire. The hog has got to be some pumpkins, after all, and scorns to look at prairie chicken or quail.

The Colorado women, who vote on all matters just as the men do, are put out because they are not recognized in the entertainment of President Taft. They seem to understand that they are "just as good men as any" when it comes to voting and they don't like the slight. Just like a woman.

A new drink that should be popular in North Dakota and all prohibition states, has been brought out in the south. It is said to have all the kinks of the present article but is odorless, and the bouquet is not on a man's breath after he has imbibed. This does away with any explanations to the good housewife, and eliminates the necessity of carrying coffee, cloves, lemon rind or any of the seeds sold to exterminate the smell. With the odor taken away from the new alcohol that is to be made from saw dust at seven cents a gallon, the possibilities are great.

Seven thousand acres of Aitkin county land changed hands within the past week in one deal. The lands were bought for settlement, supposed to be a colonization movement, by Albert W. Swalm, Consul of the United States to Southampton, England, and it was a spot cash deal. Until the advent of the Soo and the new Cuyuna range roads these lands were a considerable distance from railroad facilities but with their building comes the call for land in the country that they will furnish an outlet to. The railroad building in northern Minnesota will bring many hundreds of settlers to the state. There were no mineral right reservations made on the sale of this large tract of land.

The Bemidji Pioneer pays George Moody the following compliment: "George Moody, of Brainerd, who has been filling the position of court reporter to Judge Wright during the absence of G. H. Gardner in Chicago, left last evening for his home in Brainerd, Mr. Gardner having returned to the city. It is doubtful if there is in the city of Brainerd a more popular and aggressively square citizen than this self-same George. He is good nature personified, and always has a pleasant word and a hearty hand-clasp for everyone. Verily, it is all sunshine and no shadow, when George is around, and it is not much wonder that his friends are legion and are steadfast in their allegiance to him. Such men are of great value in this world of worry and trouble; they make life's burdens easier to bear."

## SENSATION IN A CHICAGO CASE

## "Jury Fixing" Scandal Comes Up in Court.

Chicago, Sept. 21.—The discharge of six jurors chosen and the venire of seventy-five men called in the trial of Vincent and Joseph Altman, who are charged with alleged connection with the throwing of a bomb and the wrecking of a sash and door company, was the most sensational of the many developments in the jury "fixing" scandal here. Judge K. Scanlan ordered a non-suit entered in the Altman trial and immediately after the order had been entered the Altmans were again arrested on a capias issued following the return by the grand jury of a new indictment for the same offense.

John J. Holland, who is under bonds of \$20,000 charged with conspiracy in the jury "fixing," was relieved of his duties as secretary of the jury commission at a meeting of the judges of appellate, circuit, superior, probate and county courts.

Nicholas Martin, the secretary of Alderman Michael J. (Hinky Dink) Kenna, who was arrested on Saturday and put under \$5,000 bonds, but who was not arrested on the second warrant, appeared and gave bonds for \$20,000. Willis J. Rayburn, a real estate dealer, and Holland gave new bonds for \$20,000 Sunday.

State's Attorney John E. W. Wayman issued a statement advocating an upheaval in the jury commissioner's office, even to the discharge of every one connected with it, and wrote a letter to President William Busse of the county board asking for \$10,000 to carry on the trial of three men arrested.

At the meeting of the judges it was decided to take special care in the sifting of the present veniremen. It was also decided that the boxes containing names from which jurors are drawn can be turned over as evidence to the criminal court upon the order of a judge of that court.

## DUTCH INVADE NEW YORK

The Netherlands Hudson-Fulton Committee Arrives.

New York, Sept. 21.—The old town of New Amsterdam, better known now as New York, was invaded by the Dutch. The invaders were the "Gedachtenisviering"—the plain English of which is The Netherlands' Hudson-Fulton committee—who arrived on the liner Nieuw Amsterdam, upon the forepeak of which the royal ensign proudly proclaimed that the official representative of Queen Wilhelmina was on board.

There were French invaders, too, of New York. Early in the morning the three big slate-colored battleships which are to represent France at the celebration, boomed their crisp salutes to the fortresses which guard the harbor entrance, and passed in through the narrows to their anchorage beneath Riverside drive. A jaunty flag flown by the leading warship announced that a ranking admiral was in command of the little fleet.

## AN IMPRESSIVE FAREWELL

Given to the New United States Minister to China.

New York, Sept. 21.—An impressive farewell was given here to Charles R. Crane of Chicago on the eve of his departure to become minister to China. With Seth Low, former president of Columbia university, as toastmaster, Wu Ting Fang, the retiring Chinese minister, as principal guest, a cordial letter of good will as President Taft's contribution and a long list of the nation's leaders in attendance, there was nothing lacking at the dinner given by the American Asiatic association at Delmonicos.

Mr. Crane, in his address, spoke enthusiastically of the pleasure which he took in accepting President Taft's offer of the post in China. "I supported Grover Cleveland, but that Shanghai speech of President Taft was so frank and clear, and sounded so much like one of good old Uncle Grover's that I felt that possibly the government might be safe in the hands of one Republican."

## MEMORIAL SERVICES FOR GOV. JOHNSON

Will be Held at the Opera House in  
This City on Thursday  
Afternoon

## MAYOR OUSDAHL WILL PRESIDE

An Appropriate Program of Music  
and Addresses Will be  
Given

There will be memorial services in honor of Governor Johnson held at the opera house in this city on the afternoon of Thursday, September 23. Mayor Ousdahl, who has taken the matter in hand, has secured the use of the opera house for that purpose and a fine program of addresses, interspersed with music, has been prepared. The services will commence at 2:30 o'clock. The following program will be given, Mayor Ousdahl, presiding:

Solo—Miss Nel Fie Alderman  
vocation—Rev. W. J. Lowrie

Address—Mrs. Geo. D. LaBar

Address—Col. C. D. Johnson

Address—Rev. Charles Fox Davis

Address—Rev. J. R. Alten

Secretary Hohman stated this afternoon that the occasion would be observed in some way by the schools, at whether by dismissal in order to let the pupils attend the exercises in the opera house or by holding exercises in the schools in honor of the memory of the late governor, had not been decided as yet.

Mayor's Proclamation

Mayor Ousdahl this afternoon issued the following proclamation regarding the death of Governor Johnson:

PROCLAMATION

WHEREAS, The whole state of Minnesota is grief stricken because of the death of the late Governor Johnson. In this hour of affliction our citizens are overwhelmed with sorrow, and it seems but just and right that we should show our appreciation of his services as chief executive of our great State, by observing Thursday, September 23rd, 1909, as a day of mourning:

I should therefore recommend as a tribute of respect to the memory of our late Governor, that business be suspended in all public offices in our city on the day of his funeral; that all places of business close their doors at least during the hours of the funeral services and that all the public schools of the city be closed during the afternoon.

I would further suggest that all citizens attend memorial services at the opera house at 2:30 o'clock p. m., which is the time set for the funeral of our late Governor at St. Peter.

A. OUSDAHL,  
Mayor City of Brainerd.

Adopted Son of Christian Scientist Leader So Believes.

Hartford, Conn., Sept. 21.—Dr. E. F. Foster of Vermont, an adopted son of Mrs. Mary Baker Eddy, founder of the Christian Science church, stated at the residence of Dr. Robert C. Han-

non, in East Windsor Hill, that he was certain that his foster mother, Mrs. Eddy, was dead and had been dead for some time, though information of her end had been purposely concealed from the public for a co-

terie of Christian scientists in the "mystery" house in Boston.

HOW TO GET FAT

Use Samose, Says H. P. Dunn and Put on Good Flesh

The almost universal interest in physical culture is the best evidence that can be offered as to the need of a simple and scientific method of making thin people fat, increasing strength and restoring the health.

Athletics, when carried to an extreme, often result in straining the vital organs. How much better it would be for the average person to regain health, strength and flesh by using Samose. This flesh-forming food is assimilated as soon as it enters the stomach; it helps the organs to assimilate the food and extract the flesh-forming elements; it builds up the muscles and rounds out the limbs into shapely plumpness.

Samose has been so successful in making thin people fat, and restoring the weak and run down to strength and health, that H. P. Dunn, the popular druggist, sells it under his positive guarantee to refund the money if it does not benefit.

SENATOR ALDERMAN HONORED

Named as One of the State Senate Committee to Attend Governor Johnson's Funeral

Hon. S. F. Alderman, of this city, state senator for the Forty-Eighth senatorial district, was honored by Hon. Edward E. Smith, president pro tempore of the senate, by being appointed as one of the committee from the senate to attend the funeral of Governor John A. Johnson, in an official capacity. He left today noon for St. Paul on his sad errand.

A FREAK OF NATURE

Freeman Young Brought Portion of Tree to This City with Steel Trap Imbedded in It

Freeman Young, of the town of Crow Wing, brought a unique freak of nature into the city today. It was a steel trap deeply imbedded in the wood of a small jack oak tree. Thirteen years ago, when a mere lad, Mr. Young hung a trap up in a tree by the chain in such a manner that breeze happened to swing the trap so that it was caught in the crotch of an oak sapling near by. The trap was forgotten and hung there until discovered by him a few days ago. The spring and a portion of the jaws of the trap are imbedded in the wood which has grown over them, the tree having increased about three inches in diameter since the trap was hung there. Mr. Young cut down the tree, brought a section to Brainerd and it is now on exhibition in George West's saloon.

ROGERS-BROWN CO.

LEASES MORE LAND

Secures Forty Acre Tract from Jamison, Peacock & Neumann Adjoining Town of Crosby

WILL SINK SHAFT IMMEDIATELY

Such is the Rumor and all Indications Point to Its Being Correct

The Rogers-Brown Ore company has placed on record a mining lease running from R. C. Jamison, D. C. Peacock and wife and Josie Neumann and husband, to themselves. The property covered by the lease is the northwest quarter of the northwest quarter of section 12-46-29, which lies just north of the townsite of the town of Crosby, and is also adjacent to the property on which the Crosby interests have made, what is said to be, the best find of ore on the Cuyuna range.

The Rogers-Brown company have been drilling on this property for several months and has four or five drills at work there at present, and has also let the contract for permanent boarding camps.

The minimum output is fixed at 8,000 tons per year for the first five years and 15,000 tons per year thereafter. The royalty to be paid is 25 cents per ton. This is the property on which it is reported that the Rogers-Brown Ore company would at once commence work on a shaft. The Crosby interests also declare their intention of starting a shaft in the near future and if these plans are carried out, then that will become one of the busiest points on the Cuyuna range.

A rather uncommon feature of the lease was the payment of the minimum royalty in full for two years in cash at the time of the execution of the lease.

BUY A HEATER EARLY

Get Your New Cole's Hot Blast Set Up in Your House Before Real Cold Weather Comes, and Let It Save for the Full Season for You.

If you have any idea of buying a heater this winter get it early. Many of our readers will remember that during the cold snap of last winter they wished they had done away with the old heater that will no longer do the work. Don't go through the chilly experience of last winter again. Enjoy the comforts of the new stove the whole season now.

Cole's Hot Blast, the Original, from Chicago, sold by us, never fails in an emergency. In the coldest weather it meets every requirement. It warms the rooms with a steady, even heat, and if attended to every 24 hours the fire will not go out all winter long. The stove can be shut up air tight and will hold fire from Saturday night until Monday morning. It holds fire over night and by simply opening a draft there will be enough fuel left from the evening before to heat the rooms one to three hours in the morning. Every user of Cole's Hot Blast heater has the genuine luxury of dressing in warm rooms and eating breakfast in a comfortable dining room without getting up in the cold to kindle a fire.

We have them on hand and will be glad to show them to you. The price runs from \$12.00 up.

ADDITION TO CUYUNA PLATTED

Plat of Foley's Addition to Town of Cuyuna Was Placed on Record Last Tuesday

The town of Cuyuna is spreading out. The plat of Foley's First Addition to the town of Cuyuna was filed in the office of the register of deeds on Tuesday. The addition is platted by T. R. Foley, Jr., and comprises that part of the northwest quarter of the northwest quarter of 31-47-28 lying west of the original town. The work of surveying and preparing the plat was done in Oct., 1908, by Frank A. Glass, mining engineer, at about the same time the original townsite was platted, but has just been placed on record and opened for the sale of lots.

A DOCUMENT HE WILL CHERISH

Col. C. D. Johnson Has One of the Latest State Papers Signed by Late Governor

Col. C. D. Johnson has a document which he will always cherish. The colonel has always been a great admirer of his illustrious namesake, and introduced him to the public on his visits here during each of his campaigns and was appointed by the late governor as delegate from the Sixth congressional district to the Great-Lakes-to-the-Gulf waterways convention, which meets in New Orleans on October 30th.

Col. Johnson expresses regret that he will be unable to attend the convention. The appointment was signed September 14th, and is one of the latest papers to which the Governor ever set pen.

To ward off Bright's disease or diabetes.

Doan's have done great work in Brainerd.

P. M. Bislar, living at 412 S. 12th street, Brainerd, Minn., says: "I suffered from occasional attacks of kidney trouble for some years. There was a lameness across the small of my back, which soon developed into a constant dull ache. When the spells were at their height, the secretion became somewhat irregular in action and deposited a heavy sediment. This was sufficient indication that my kidneys were disordered and when I heard of Doan's Kidney Pills, so highly recommended, I procured a box from H. P. Dunn's drug store. A local physician said I could use nothing better. They entirely cured me and my experience has proved them to be a very effective remedy."

IN TRIAL OF EDWARD M'CANN

Taking of Evidence Has Been Concluded.

Chicago, Sept. 21.—The taking of evidence in the trial of Edward M'Cann, the former police inspector, who is charged with "grafting" and malfeasance in office, has been concluded. The closing arguments will be made today and there is a probability the case may go to the jury tonight, although it is likely to be Wednesday morning before the attorneys for both sides have finished.

Assistant State's Attorney Claude Smith was the last person to take the oath as a witness, but he was not allowed to testify because of objections made by the defense. Attorney Lewis, for the defense, called the court's attention to a decision of the supreme court holding it highly improper for an assistant prosecutor to testify in criminal cases in which he was interested.

Just before court adjourned Attorney Neely for the defense presented a second motion asking the court to take the case from the jury, but it was overruled.

Miss Alice McGrath, a sister-in-law of Mr. M'Cann, gave testimony contradicting certain statements made by Frank concerning his visits to M'Cann's home.

CURTISS TO MAKE FLIGHTS

Will Be an Attraction at Hudson-Fulton Celebration.

New York, Sept. 22.—After concessions were made by the aeronautic committee of the Hudson-Fulton commission, final arrangements for the flights of Glenn H. Curtiss, the Hammondsport (N. Y.) aviator, during the Hudson-Fulton celebrations, were made. Mr. Curtiss objected to the conditions imposed in his contract, that is that he was to make certain specific flights before the contract price of \$3,000 was paid.

He said that he was unwilling to be tied down, but that he would do his utmost to make a creditable showing. With this understanding, all arrangements were made and he is to begin at once to prepare for his flight from Governor's Island, commencing Sept. 27 and ending Oct. 2, all flights, of course to depend upon weather conditions.

It became definitely known that there will be no flight contest between Curtiss and Wilbur Wright. Mr. Wright expects to begin his preliminary flights by the end of the week, while Curtiss will go to Hammondsport on Thursday, where he will be

received by his townspeople after his victorious trip abroad. He will return here with his machine, a new one recently completed in his factory there, as soon as possible. Attached to it will be pontoons instead of wheels or in combination with skids in order that he may alight on water if necessary.

PLOT TO EXTORT ALLEGED

New York Men Placed Under Arrest in Chicago.

Chicago, Sept. 22.—Bench warrants were issued for George Hazelton, Jr., an attorney, and L. Scott Kemper, a actor, both of New York, and both were arrested here after Mr. and Mrs. James H. Channon disclosed what is declared to be a plot to extort \$160,000 from them.

Threats to make public charges that Channon, while guardian of the estate of Mabel Arey, a relative by marriage, had been guilty of irregularities, are the means the defendants are declared to have employed to obtain money from the Channons.

Mrs. Channon was the daughter of a widow who married Henry W. Arey, a wealthy Philadelphia man. One child, Mabel Arey, was born of this marriage and when her father died she inherited about \$200,000. Mr. Channon was appointed Miss Arey's guardian and after she reached her majority he continued as manager of her property.

Miss Arey went on the stage and married Henry Ludlam, an actor. Mr. Channon made a settlement of property at that time. Later the Ludlams demanded a house and lot in this city, valued at \$30,000, which they said Mr. Channon withheld from them. Hazelton and Kemper then appeared in the case and threatened to expose the Channons in many irregularities in the handling of the Arey property unless they were given what the Ludlams had demanded.

Suitor—Sir, you are undoubtedly aware of the object of my visit?

Father—I believe you desire to make my daughter happy. Do you really mean it?

Suitor—Unquestionably.

Father—Well, don't marry her, then.—Exchange.

# COOK BRINGS DATA WITH HIM

## Willing to Submit Record to Competent Judges.

## WILL ABIDE BY THEIR VERDICT

Brooklyn Explorer Says Such Course Alone Can Satisfy Him and the Public—Also Will Bring to America Human Witnesses to Prove That He Has Been to the North Pole—Warmly Welcomed in Brooklyn.

New York, Sept. 22.—"I have come from the pole. I have brought my story and my data with me. I have not come home to enter into arguments with one man or with fifty men, but I am here to present a clear record of a piece of work over which I have a right to display a certain amount of pride.

"I am perfectly willing to abide by the final verdict on this record of competent judges. That must be the last word and that alone can satisfy me and the public.

"Furthermore, not only will my report be before you in black and white, but I will also bring to America human witnesses to prove that I have been to the pole."

Such is the sum and substance of the first message Dr. Frederick A. Cook brought home in person to America, answering his critics the world over. Under seas and over land it traveled north as fast as electricity could carry it to where another explorer, Robert E. Peary, homeward bound from the North pole, was pacing the decks with his hand to his eyes for a sight of his wife and children.

**Dr. Cook Up Early.**  
Throughout a long and uneasy night, a flotilla of tugboats, outposts of a continental curiosity, had tossed in the darkness for a glimpse of the Oscar II, bearing the man from whom a nation waited word. At 5 o'clock in the morning the explorer was on deck. The Oscar II, had purposely been held back so as not to disarrange the re-

ception plans of the Arctic Club of America, but leaving Fire Island shortly after midnight she nosed her way into quarantine at an hour too early for everybody but Dr. Cook.

There was an anxious wait at quarantine while the tugs bobbed nervously about, the newspaper men on board them shouting broken queries through megaphones at the black sides of the Oscar II, high above them. Dr. Cook lowered a signed statement in a pail to the press representatives and resumed his walk to and fro, up and down the landward rail.

**Mrs. Cook Arrives.**  
A speck in the distance began to assume dimensions. Presently it was recognizable as the tug bearing Mrs. Cook and her two daughters. Quickly the tug came alongside and, while the heavy swell ran around her fenders against the plates of her big sister, Dr. Cook clambered nimbly down Jacob's ladder and with no concern for the cameras trained on him, made a rush for his wife. For the moment he even missed the children, who stood a few feet away, until his wife silently led him to them. Then, as he lifted his youngest daughter to his shoulder, the silent, watching crowd that lined the rail of the Oscar II, broke into a storm of cheers.

It had been arranged that the excursion steamer Grand Republic, carrying Dr. Cook's friends and clubmates from Brooklyn and New York and John R. Bradley, his backer, should keep far enough in the background to give him a few moments privacy with his family. But soon there followed a second transfer, from the tug to the Grand Republic. As Dr. Cook set foot aboard, Miss Ida Lehman, daughter of an old Brooklyn friend, threw a wreath of roses about his neck, greeted him as a hero and proclaimed him a "gentleman of Bushwick." Bushwick is the name of Dr. Cook's home section of Brooklyn.

**Shows No Enthusiasm.**  
Dr. Cook looked it. Brown, positive, patient, taciturn, he endures the business of being a hero with courtesy, but no enthusiasm.

Mrs. Cook, at her husband's elbow, had her first taste of the publicity she had hitherto shunned, and took it placidly.

On shore the really formidable part of the day for Dr. Cook still awaited him. After the first rush of welcome aboard the Grand Republic, he had been able to find comparative seclusion in the pilot house. From that vantage point he could see the streets of Brooklyn, black with thousands, long files of automobiles ready, and he knew that a reception had been planned for him at the Bushwick club and that an ordeal awaited him.

As he stepped ashore it was noticeable that no representative of the nation, the state or the city was there to greet him. Bird S. Coler, president of the borough of Brooklyn, had welcomed him on the Grand Republic for that borough, but the city of New York sent no official representative. But sincere and enthusiastic to the point of tumultuousness, his welcome may be best described as a neighborly affair, devoid of official significance.

**WHITNEY IS HEARD FROM**  
Young Sportsman Supports Dr. Cook's Contention.

New York, Sept. 22.—Harry Whitney, the young New Haven sportsman upon whose testimony the North pole controversy largely hinges, has been heard from and in effect supports Dr. Cook's contention that he reached the North Pole according to a story published here.

According to the New York American, Mrs. Whitney, his mother, received a letter dated Sept. 5, in which Whitney says:

"I saw Dr. Cook at Etah. He has accomplished a great thing. He is bound to become a great man. He claims to have reached the North pole, and from evidences I believe he has."

The gist of the foregoing, according to the American, was given out by Mrs. William Blodgett of Fishkill, N. Y., a sister of Mrs. Whitney.

Whitney is the man whom Dr. Cook says that he entrusted some of his instruments and confided the secret that he had reached the North pole. Whitney subsequently joined the Peary party, but left on a side trip up the Labrador coast on a hunting expedition. Commander Peary has said that Whitney spoke no word of Cook's discovery and this has been used largely to the Brooklyn explorer's discredit. The personal testimony of the young New Haven man has therefore been eagerly awaited.

Cuban Editor and a Major General Engage in Combat.

Havana, Sept. 22.—A desperate duel with cavalry sabers was fought in the parlor of a private residence in Havana between Major General Enrique Loynaz del Castillo, a former congressman, and Wilfredo Fernandez, editor of El Comercio.

After several minutes of fencing, General del Castillo was seriously wounded in the sword arm and was unable to continue fighting.

The duel was the outcome of a sarcastic reference in El Comercio to the general, who thereupon sent a challenge to Senor Fernandez.

# PRESIDENT TAFT TALKS IN DENVER

## Discusses the Corporation Tax Statute.

## WOULD AMEND CONSTITUTION

Nation's Chief Executive Strongly Urges All the States to Adopt Proposed Amendment to Make an Income Tax Possible in Time of Need. Secretary of the Interior Ballinger Joins the President's Party.

Denver, Sept. 22.—Making his way still further to the west, President Taft arrived in Denver and in the Denver auditorium, where a year ago Mr. Bryan was nominated as his opponent in the presidential race, faced a crowd of thousands that in its noisy welcome and continuing enthusiasm recalled some of the scenes of convention week.

President Taft, switching from his purpose to discuss the question of the conservation of natural resources in his Denver speech, elected to take up the corporation tax passed as a part of the Payne tariff bill, and to defend it as against the proposition to impose a direct income tax, which he acknowledged seemed likely to pass the senate when the corporation tax was devised as a compromise. The president strongly urged that all the states should adopt the proposed amendment to the Constitution, however, to make an income tax possible in time of need.

Mr. Taft was joined here by the secretary of the interior, Mr. Ballinger, who will accompany him on part of the trip through the far Northwest. It is likely that the president desired a further conference with Mr. Ballinger, whose conduct of the interior department

**He Recently Upheld**  
In a long letter called out by the Ballinger-Pinchot controversy, before making a final exposition of the aims and objects of this administration as to the conservation of the resources, Mr. Taft probably will not take up the subject now until he reaches Salt Lake City, where he spends Friday and Saturday; or he may wait until he arrives at Spokane, Wash., where at the irrigation congress the Ballinger-Pinchot controversy really had its first public airing.

The president in his speech here declared that the corporation tax was in itself the best form of income tax that could be levied and pointed out that it contained many of the best features of the income tax law of England. In urging that the states should vote for the amendment to the Constitution permitting the levy of a direct income tax, without apportioning the proceeds among the states according to their population, the president declared that it would be possible so to amend the corporation tax as to include within its scope every desired feature of an income tax except the levy upon incomes derived from actual salary and professional services.

The president said he opposed a direct income tax except in cases of emergency and he believed it to be a prime fault in the federal Constitution that no provision is made for a direct levy to meet war time or other extraordinary expenses.

Mr. Taft declared that it was the supreme court decision declaring unconstitutional the income tax law passed by a Democratic congress some years ago that prevented the leaders in congress during the session recently closed from including in the corporation tax measure a provision for a levy upon bonds and bondholders.

# We Startled a Good Many People with our Heater Offer Did You Read It?

We put some statements about heating stoves down in black and white that stove users **never heard before.** We want to repeat them! Remember, we are backed up by one of the grandest stove manufacturing concerns in the world—yes, backed by a concern that makes and sells more soft coal heaters each year **by three times than any other maker** anywhere.

So there are **millions of dollars** behind what we have to say about heaters this year!

To us alone is given the right to make the most unusual guarantee **ever made** on a heating stove.

## Cole's Hot Blast Guarantee

Here is our authority from the President of the Cole Manufacturing Co.—the strongest guarantee ever made on a heater.

"You are authorized to sell the Original Cole's Hot Blast Heater this year on the **most rigid guarantee** ever made by any stove manufacturer. Our guarantee to every customer of yours is—

- "1—A saving of one-third in fuel over any lower draft stove of the same size, with soft coal, slack or lignite.
- "2—That Cole's Hot Blast will use less hard coal for heating a given space than any base burner made with same size fire pot.
- "3—That the rooms can be heated from one to two hours each morning with the soft coal or hard coal put in the stove the evening before.
- "4—That the stove will hold fire with soft coal from Saturday night until Monday morning.
- "5—A uniform heat day and night, with soft coal, hard coal or lignite.
- "6—That every stove will remain absolutely air-tight as long as used.
- "7—That the feed-door is and will remain smoke and dust-proof.

"All we ask is that the stove shall be operated according to directions and set up with a good flue.

**"(Signed) COLE MANUFACTURING CO."**
